

CLOVIS HIGH SCHOOL

Pride, Unity, and Excellence

May 23, 2023

To Whom it May Concern:

I have had the pleasure of knowing Karla Hernandez Martinez since August 2020. Karla is currently a student in my 11th grade AVID class at Clovis High School. I am the coordinator of the AVID program here at CHS. She has been enrolled in the rigorous AVID elective class for the past three years. Karla was also a student in my health course as a freshman. A student who truly challenges themselves inside and outside of the classroom is very rare. Karla is one of these rare students.

At Clovis High School, AVID is a highly-selective elective course for students who are hardworking and goal-oriented. All members are working towards being college and career ready. Karla authentically believes in the program and we have seen tremendous growth in her. Through her hard work and determination to succeed, Karla has maintained above a 3.70 cumulative GPA for her high school career despite the difficulties of distance and hybrid learning. Karla is also a member of the Clovis High Folklorico dance team, is taking two AP classes, and is enrolled in the CART Web Application Development Lab.

Two hours a week, students in the AVID class participate in small-group tutorial sessions. They are expected to work together professionally and respectfully to help each with academic difficulties they may be having that week. Karla is an exemplary member of these group situations. She is not afraid to ask for help when she needs it and offers help to her classmates as well.

Karla is an intelligent, independent, and determined student. She is the type of student that others choose to work with when given the choice. I feel confident in recommending Karla Hernandez Martinez for this opportunity.

Please feel free to contact me should you have any questions or concerns.

Sincerely,

Carrie Beauchamp
AVID Coordinator and elective teacher
